Capability Statement

Company Overview

Our Employee Owned company provides quality products on time to the Agriculture, Logistics, Automotive, Furniture, Government, and other industries. Since 1971, we have taken great pride in our low defect rates and great service to be a top supplier with our customers.

Core Competencies

Plastic Injection Molding

- Materials: ABS, ACE, PA, PC, PC/ABS, PE, PET, PP, PS, TPE, etc.
- Additives: Glass Filled, Talc, Minerals, & a variety of colors
- Presses: 42 ranging from 100 Ton to 950 Ton
- Secondary Operations: Drilling, Insertions, Tapping, Welding (vibration/ultrasonic), Pad Printing, Hot Stamping, etc.

Assembly

- Simple and complex assemblies ▪ Kitting ▪ Testing
- Electrical ▪ Electrical Soldering ▪ LED ▪ Battery Cells

Tooling / Mold Making (SMT)

- On site Mold builds up to 300 Ton press size, offshore partners for over 300 ton.
- Multiple offsite build sources for all sizes, domestic and offshore
- Equipment: CNCs, Sinker EDM, Wire EDM, and more
- Tool, mold, and electrode design

Engineering Services

- Design enhancement ▪ Mold flow analysis
- Plastic Design Training ▪ Product development assistance

Quality

- Certified: ISO 9001:2015, ISO 14001:2015
- UL Listed ▪ BIFMA compliant ▪ APQP driven

Supply Chain Management

- EDI capability for customer or vendor orders
- Bar coded inventory tracking and management
- Supply chain for: stampings, castings, extrusions, powdered metals, vacuum forming, MDF board products, PC boards, LED's, blow molding, fasteners and more
- Drop ship, distribution, and satellite warehousing available

Industries Served

- Consumer/Appliance
- Utility/Electric
- Material Handling
- Lawn & Garden
- Automotive
- Office Furniture
- Defense
- Non-Invasive Medical
- Power & Energy

Differentiators

- Employee Owned Small Business
- New Mold Making, Molding and Assembly under one roof
- Emergency Mold Repair
- Product Development/Design Assistance
- On-site Mold Tool Shop
- Conduct Seminars in Plastic Part Design
