

We are your custom rubber gasket & seal manufacturer!

What is in it for you?

- Quality source for your custom rubber needs.
- Increase your sales output.
- Increase your purchasing power at no cost and no obligation.
- Improved Customer Satisfaction.

Client Relationship & Account Management Team

We build lasting relationships with our clients.

Our innovative design and manufacturing team pushes the boundaries of rubber product creation.

Our manufacturing capabilities satisfy even the most unique specifications.

We handle the logistics, so that you focus on your product and brand development.

Trust in our meticulous craftsmanship and quality control that enjoys a near-zero reject rate.

A Partner You Can Trust!

With the advent of new rubber compounding and molding techniques, tighter quality control standards, strict importing laws and inventories, today's industrial distributors are faced with a variety of challenges.

We are well prepared to help you meet those challenges by providing the highest quality of manufactured goods along with friendly and efficient customer services.

We deliver the following:

- Quality Products
- Competitive Pricing
- Fast Response Time on Quotes
- ISO Certified Quality Parts & Materials
- Fast & Reliable Delivery
- "Just in Time" Inventories
